Governor

February 9, 2007

Dear Sir or Madam:

Air Resources Board (ARB) staff invites you to participate in a public workshop to discuss initial regulatory concepts for mandatory reporting pursuant to the California Global Warming Solutions Act (AB 32, Statutes of 2006, chapter 488). Staff will share preliminary concepts for regulatory scope, general structure, types of facilities affected, and timing. Under AB 32, ARB is required to adopt this regulation before January 1, 2008.

The workshop will be held at the following time and location:

Date: February 28, 2007  
Time: 9:30 AM – 1:00 PM (Pacific Standard Time)  
Location: Coastal Hearing Room  
Address: Cal/EPA Headquarters  
1001 I Street  
Sacramento, CA 95814

An agenda and additional materials may be posted prior to the meeting at ARB's Climate Change website (<http://www.arb.ca.gov/cc/cc.htm>), and made available in hard copy at the meeting. Other public meetings regarding ARB's implementation of AB 32 are also being scheduled; please check ARB's Climate Change website for details. At the website you may also join our electronic mailing list to receive notices of ARB activities and public meetings related to the implementation of AB 32.

Directions to Cal/EPA Headquarters and public transit information can be found at the California Environmental Protection Agency's web site at <http://www.calepa.ca.gov/epabldg/location.htm>. If you have special accommodation or language needs, please contact Ms. Marisa Baker as soon as possible, via phone at (916) 322-9567 or e-mail at [mrbaker@arb.ca.gov](mailto:mrbaker@arb.ca.gov). TTY/TDD/Speech-to Speech users may dial 7-1-1 for the California Relay Service.

For those unable to attend the workshop in person, a live audio webcast will be available beginning at 9:30 a.m. on February 28, 2007 at <http://www.calepa.ca.gov/broadcast>. During the workshop the webcast audience will have the opportunity to submit questions and comments by e-mail.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.*
